

Orionic Frequency Adjusting Healing

Healing The Planet One Thought at a Time

The Latest Vibrations

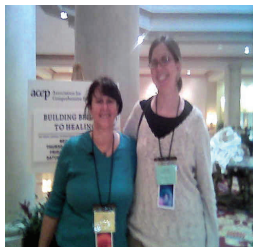

New Paradigms in Healing for the 21st Century

We recently attended the ACEP (Association for Comprehensive Energy Psychology) conference in Chantilly, Virginia. We heard plenary speakers Rupert Sheldrake, PhD speaking on "The Mind Beyond the Brain: Recent Experimental Evidence" and Christine Page, MD who talked about "Alchemical Healing". It was exciting to be among other mental health professionals who were using different methods of energy psychology and having dramatic results. Many practitioners were interested in learning about what we do with Orionic Healing and as a result, we made some important contacts.

Thoughts from Janna

It was a great honor for me to bring Orionic Healing to fellow psychotherapists at such a wonderful venue as the conference we attended. Although we did not present a workshop many of the conference attendees were very interested in what we are doing and were interested in attending our introductions, and having private sessions. This is such a thrill for me as I have had Orionic Healing for a long time. It feels like a second birthing to bring it out into the world on a much bigger scale.

As our "morphic field" grows, we are seeing amazing results with our individual clients, who are receiving relief more and more quickly. Clients are telling their friends and families about their experiences and spreading the word about how wonderful Orionic Healing is!

Christa and Janna at the close of the ACEP Conference

Christa's Thoughts

My biggest challenge at the ACEP conference was deciding which workshops to attend as there were so many different areas to explore. We experienced many other types of energy psychology, including EFT, AFT, TAT and Seemorg Matrix. They were very interesting and each had their own unique attributes. I did lots of networking and am setting my sights on next year's conference for a workshop about Orionic FA Healing.

The workshop that most inspired me was by Dr. Dawson Church, PhD. who wrote *The Genie in Your Genes* (2006). Dr. Church outlines research that demonstrates that a person's negative thoughts can directly express which genes (on the DNA) will be expressed, as well as effect immunity, healing and many other systems of the body. After hearing Dr. Church speak, I am more determined than ever to use Orionic Healing to clear any negative or limiting thoughts before they do permanent damage to my body and my life.
